Policy number: OT137112656

Dear Mr Lazarus Phineas,

Welcome to OUTsurance where "you always get something out". The enclosed pack contains your policy wording and schedule confirming the details of your cover. Please make sure that the items covered are no longer insured elsewhere to avoid duplication of insurance cover. It is also your responsibility to ensure that the cover amount is appropriate to prevent under-insurance or over-insurance. Should you be materially under-insured, we may adjust your claim amount in line with the shortfall in cover.

In addition, we wish to highlight the following benefits:

- Emergencies occur when we least expect them and help is at hand through **Help@OUT**, our free **24-hour emergency assistance** program.
- Please read the paragraph headed "DO NOT TOW" under the vehicle section of your Schedule.
- Load shedding, power surges and lightning strikes can cause costly damage to your building's fixtures and fittings, electronic equipment and plant and machinery. You can implement a valuable line of defence against power surges by making use of surge protection devices. Should you be interested in effecting surge protection in your Business, you can make use of the discount granted to OUTsurance clients by Clearline (<http://www.clearline.co.za/>) on their surge protection equipment. To qualify for this discount, visit our website at <http://www.outsurance.co.za/home-insurance/lightning-surge-protection/> for more information.

You're most welcome to contact us on **08 600 70 000** if you need any additional information. Please refer to our website (www.outsurance.co.za) for our updated office hours. You can also request a call back using the **OUTsurance app**, the self-service portal (<https://my.outsurance.co.za/login>), or our website and we'll get back to you as soon as possible.

We are confident that your policy provides you with real value for money, combining the widest cover and benefits for you.

Kind regards,

The OUTsurance Business team

Premium guarantee

You warrant that the information supplied is correct in every respect. It is therefore essential for you to verify that all the details noted on your schedule are correct. Should the information not be correct for any reason, you need to notify us as soon as possible. Should you, for example, verify your quote/schedule and notice that you forgot to mention a previous claim to us - you have to advise us and the premium will be corrected. Similarly, if you, for example, advise us that your vehicle must be covered for business use but our advisor incorrectly captured private use - the premium will also be corrected when you advise us of the error.

At OUTsurance, your premiums for all risks on cover will be reviewed on the annual anniversary date of the policy.

First amount payable

The first amount payable, also known as an excess, is the amount you pay on each and every claim. When you claim under more than one section, then multiple excesses will apply.

The first amount payable is determined for each section claimed for by using the following approach:

1. **Fire, Accidental damage and Theft sections:** An excess per Column will apply. When you claim for multiple Column 5 items, then only the highest Column 5 excess will apply.
2. **Vehicle sections:** An excess per vehicle will apply under all vehicle sections claimed for. Vehicles include motor vehicles, trailers, caravans, watercraft and motorcycles.
3. **All other sections:** An excess per section will apply.

Different excesses per Column, vehicle or section

The excess per item is noted within each section of this policy. When you claim for additional/included perils with a different excess, then only that excess will apply for that item. When an additional excess applies, then this excess will also be payable in addition to the item's standard excess. The excess per Column, vehicle or section will be calculated as the highest excess per Column, vehicle or section.

VAT details

The total premium includes a **15% VAT amount of R153.03**. This schedule becomes a tax invoice as allowed by SARS after inception of cover when payment of the amount due has been made.

In terms of Binding General Ruling No.14 issued by a senior SARS official under section 89 of the Tax Administration Act No. 28 of 2011, this document together with proof of payment of the premium constitute an alternative to a tax invoice, debit note or credit note as contemplated in sections 20(7) and 21(5) of the VAT Act respectively. This is subject to the condition that this document contains the VAT registration number where the policy holder is a registered VAT vendor.

OUTbonus benefits

At the end of every three consecutive years of cover, up to **10%** of your paid insurance premiums can be paid back in cash depending on the claims ratio on this policy. The claims ratio is calculated as the total claim payments made on your policy, divided by the total premiums collected for your policy within the three year period. If your claims ratio is above **30%** you will not qualify for a Business OUTbonus payment. Based on your current claims ratio, your Business OUTbonus amount is projected at **R4,223.64** and will be paid to you on **18 September 2028**. Changes on your policy or your claims ratio may affect the value of your OUTbonus.

This is to certify that Moimane Phineas Lazarus was a student at the above-named school. According to school records Lazarus has started at this institution in Jan. 1983 doing standard six until when he passed his standard nine in Dec. 1987.

Since his stay at our school he has shown good reputation and worked in harmony with those within his reach.

I have got no doubt in recommending him for any job or an institution of learning, which he may apply and qualify for nobody, could ever regret the service rendered by him.
