Executive Summary

Plum Plumb Plumbing And Supplies (Pty)Ltd is a 100% white owned plumbing business, that was established in October 2009. The company is selling plumbing materials and fittings to the public and offers plumbing related services for the Insurance Industry, commercial and residential.

Introduction

The purpose of this document is to reflect the present situation of Plum Plumb Plumbing and Supplies (Pty) Ltd.

Plum Plumb Plumbing and Supplies (Pty) Ltd that is an existing company that specializes in the delivery of top class plumbing and leak detection services, servicing the Gauteng regions feeder areas of Johannesburg and the East Rand.

The company provides a complete range of plumbing and leak detection services, which includes all plumbing works on domestic and industrial sites such as general maintenance and new installations, drain laying and maintenance to existing drainage and sewer systems, new installations and maintenance on geysers, new installations sanitary-ware fixtures and fittings, maintenance on sanitary items and fittings, general plumbing works to existing plumbing and plumbing reticulations and drainage systems. We provide our services to residential and commercial property owners, which includes the FOGI Plumbing Solution call centre which deals with numerous insurance companies and financial banking institutions such as ABSA, Standard bank, Nedbank, Mutual and Federal, Santam to name but a few, Body Corporate buildings under the Alec Massel Realty group, PSG Consult, and we also do work for Europ Assistance.

The Company is supported by a dedicated management and administration team, supported by our plumbers that are well trained and experienced in all aspects of leak detection, plumbing and plumbing related works and queries.

The plumbing supplies outlet has been in operation since January 2011 and is open to the public. The shop consists of a medium size store area approximately 300 square meters with various plumbing products as well as products for the **D.I.Y. market**. We stock a comprehensive range of plumbing products that caters for the needs of **plumbing contractors** to that of the general **homeowner**.

The Company was started to take advantage of the perceived weakness and inadequacies of other regional companies in terms of quality and customer satisfaction. Plum-Plumb Plumbing (Pty) Ltd has maintained an excellent reputation in the industry.

Products/services:

Plum-Plumb Plumbing And Supplies (Pty) Ltd provides top-quality plumbing services. The owner of Plum-Plumb plumbing And Supplies (Pty) Ltd believes that most companies in this industry suffer two major problems. These are poor scheduling of job projects and poor retention of quality employees. Both lead to poor customer satisfaction, lack of repeat business and a low word-of-mouth referral rate. Plum-Plumb Plumbing (Pty) Ltd will continue to exploit these weaknesses to gain a greater local market share.

The Company will continue to provide its plumbing services in a most timely manner and with an ongoing comprehensive quality-control program to provide customer satisfaction. The Company views each contract as an agreement not between a business and its customers, but between partners that wish to create a close and mutually-beneficial long-term relationship. This will help to provide greater long-term profits through referrals and repeat business.

Each contract awarded has been and will continue to be completed with the quality and professionalism the Company is known to possess in the industry Plum-Plumb Plumbing And Supplies (Pty) Ltd specializes in the listed below fields.

- **Burst & Leaking Water Pipes and Repairs:**
We have the skills, knowledge and experience to find and locate all types of burst or leaking pipes such as hdpe, plastic, galvanized and copper pipes, which are concealed below or unconcealed above ground on hot or cold water lines, drainage and or waste systems, ponds, pools and Jacuzzis etc.

- **Blocked Drains:**

We have highly trained and skilled drain cleaning technicians that have a wide range of specialised equipment and roter machines that cater for all the needs of any type of blocked drain the client may have, whether it be sewer or rainwater drainage systems. We also offer camera pipe inspection for our client's sewage and drainage line systems to inspect their condition and to locate causes of recurring blockages in sewer or drainage pipes from 50mm to 300mm in size. We also specialize in sewer line replacements, re-routes and new installations.

- **Geyser and geyser maintenance:**

We supply and fit new geyser installations which are installed in terms of the South African National Standard code of practice, being SANS 10254 and also effect maintenance on existing geyser installations to replace faulty geyser components to most makes of geysers that includes IHP Geysers.

- **General Bathroom and kitchen installations, repairs and maintenance:**

We do installations of sanitaryware fittings, piping for hot and cold-water lines, effect maintenance on existing bathroom sanitary-ware systems and fittings, which include connecting into existing waste and drainage lines or installing new waste and drainage pipe lines, for outside wash troughs, washing and dishwashing machine units, toilets, baths, bidets, showers, basin and complete disabled toilet systems.

- **Leak Detection:**

We are a well-managed and established water leak detection company, servicing all areas within the Gauteng feeder areas.

We specialise in domestic and commercial water leak detection using the latest German technology and equipment such as correlators, snoopers forming gas locator, underground radar mapping, water testing for ground or municipal water, Ulitrackers, thermal imaging, cam pipe inspection camera, acoustics, hydraulic and pressure testing, drainage smoke detection tests for drainage and sewer lines thereby enabling our technicians to pin point, trace, detect, map and repair all above and below unconcealed and concealed plumbing and sewer or waste reticulations.

Our technicians are fully trained and equipped to attend to all the needs of our client to locate, trace and find their water leak, drainage or sewer problem or any other plumbing problem you might experience.
